

## Quantity Estimation

Please do NOT use any external resources (e.g. internet, books, friends, etc.) besides whoever is in your chatroom. Your answers will NOT impact your bonus in any way.

Estimate the following quantities:

1. Percentage of the American population in the criminal justice system - either behind bars, on probation, or on parole in 2008
2. Average distance driven per vehicle in the U.S. each year (in miles)
3. Number of gallons total of water per day that the average American uses
4. Average weight of a car (in pounds)
5. Size of the U.S. labor force (including unemployed)
